INTERNSHIP

Logical Soft Tech Pvt Ltd

MERN Stack Developer

11 2023 – 07 2024

Indore, India

- **Roles and responsibilities :** As a MERN Developer intern, I developed key features for a live project, integrated APIs, collaborated with the team, and was recognized for problem-solving and delivering high-quality results under tight deadlines. **Additionally, I gained valuable experience in API integration throughout this process.**
- **Achievements:** I helped foster a collaborative team environment, addressed technical challenges effectively, and optimized project performance, demonstrating my commitment to excellence.

PROJECTS

[1] Cental Web Application || MERN Stack

-Freelancing

- * **1] Overview :** Developed a MERN stack-based Car Rental Application with real-time booking, user roles, and vehicle management.
- 2] Secure Authentication :** Implemented JWT and bcrypt for user authentication and role-based access control.
- 3] Admin Dashboard :** Built an admin interface for managing vehicles, bookings, and users.
- 4] API Responsive UI:** Designed RESTful APIs and a responsive UI with React and Bootstrap for a seamless user experience.

[2] E-SHOPPER Web Application || MERN Stack

-Logical Soft Tech Pvt Ltd .

- * **1] Overview:** Developed E-Shopper, a full-featured e-commerce platform with secure JWT-based user authentication, admin product management, shopping cart functionality, and real-time price updates.
- 2] API and Front end:** Integrated APIs and utilized modern front-end techniques for enhanced functionality and user experience.
- 3] UI Design:** Created an intuitive and responsive interface for seamless user interactions

[3] Video Player App || ReactJS

- Logical Soft Tech Pvt Ltd .

- * **1] Overview :** Created Video Player, a React app with YouTube-like features: streaming, content upload, user channels, playlists, viewing history, and interactive elements. Includes responsive design and related video recommendations for an engaging experience.
- 2] Utilized company's API :** Utilized the company's API to fetch video and music content, enabling features like video playback, profile updates, channel management, subscriptions, and comments
- 3] Enhanced user experience :** Integrated a feature displaying related playlists alongside the currently playing video, facilitating effortless navigation through content and enriching user engagement.

TECHNICAL SKILLS

- **Languages :** JavaScript, Core Java, C, C++, C#, SQL, HTML/CSS
- **Frontend Technologies/Frameworks :** ReactJs, Bootstrap
- **Backend Technologies/Frameworks :** NodeJs, Express, MongoDB, MySQL
- **Version Control :** Git, GitHub
